Education

B.Sc. in Computer Science with Distinction, *University of Calgary* Sep 2019 – Jun 2025

- GPA: 3.7/4.0, Dean's List

Work Experience

Junior Software Developer | MNP – *Calgary, AB* Nov 2025 – Present

- Delivered features and fixes for enterprise ERP system used by **10,000+ employees**, using **C#**, **VB.NET**, **.NET Core**, **.NET Framework**, **ASP .NET**, **Angular**, **TypeScript** and **SQL/NoSQL**; Closed **100+ user stories/bugs** and merged **200+ pull requests** across **25+ repositories**.
- Built an **AI-powered exception investigator agent** (GitHub Copilot, MCP, KQL) **reducing alert triage from 1-2 hours to 5-10 minutes**; adopted by **5+ engineers across junior, senior, and principal levels**.
- Owned end-to-end production releases on a **3-week cycle**: deploy SQL Server database changes, APIs, MSI installers, merge release branches, and coordinate dependent teams using **Git Flow** branching model.
- Handled **L4 application support tickets** leading investigations and deploying targeted bug fixes directly to production.
- Monitored and triaged production alerts for Data Integration Hub (DIH) workers using **Application Insights, KQL, Azure Monitor Alerts,** and **Azure Service Bus**
- Migrated **CI/CD pipelines to V2 templates** across **6+ repositories** using **YAML and Terraform**. configured Azure DevOps environments, approver groups, and release-readiness checks.
- Identified and fixed multiple nightly billing scripts that caused duplicate charges, **correcting 4,000+ affected records**.
- Optimized high-priority executive form performance by **95%+,** cutting load times from **1–2 minutes down to 3–5 seconds**.
- Raised code quality with **xUnit tests**, **SonarQube quality gates**; performed peer code reviews on pull request leveraging AI.
- **Led daily stand-ups** of **10-15 cross-functional team members** in tech lead's absence within **2-week Agile sprints**.

Software Developer and QA Intern | Kent Imaging – *Calgary, AB* May 2021 – Nov 2022

- **Rehired** while pursuing degree full-time, continuing engineering deliverables alongside academic workload.
- **Architected Kent's first automated testing framework** using **C#, .NET, and NUnit**; automated test suites to accelerate release velocity, enabling **4 major product releases within 6 months**.
- Collaborated with **Agile/Scrum** teams to develop and deliver software features through sprints and stand-ups.
- **Deployed database migration scripts** using **C#, Bash, SQLite** to upgrade all customer databases
- Engineered core feature enhancements in fast-paced medical imaging software/firmware **startup company**.

Assistant Manager | Lids – *Calgary, AB* Sept 2019 – Jul 2020

- Managed daily store operations, including opening/closing, inventory, and cash handling, while supporting customer satisfaction and weekly sales targets.

Skills

Programming Languages: C#, VB.NET, JavaScript, TypeScript, Java, PHP, SQL, KQL, T-SQL, YAML, HTML, CSS

Frameworks: .NET Core, .NET Framework, ASP .NET, Angular, xUnit, WinForms, React

Database Technologies: Microsoft SQL Server, Azure Cosmos DB (NoSQL), Stored Procedures, Data Migration

Cloud/DevOps: Azure DevOps, CI/CD, Terraform, YAML pipelines, Azure Service Bus, Azure Application Insights, MSI deployment

Tools: Azure, GitHub, Visual Studio, VS Code, SSMS, Git, Jira, Postman, SonarQube, NuGet, GitHub Copilot, MCP

Practices: Agile/Scrum, REST APIs, Microservices, Code Review, Release Management, SDLC, L4 Application Support, Git Flow

Bilingual: English (Native/Fluent), Korean (Native/Fluent)
